COMPETENCIES

- HTML/(S)CSS
- Angular
- Android
- JavaScript
- GraphQL
- MongoDB
- Ionic
- iOS
- Photoshop

WORK EXPERIENCE

Communico LLC *(December 2017 - Present)*
SOFTWARE ENGINEER
- Engineered library management software platform using Ionic-Angular with Cordova
- Interfaced with and maintained a RESTful API for CRUD operations
- Tracked down, triaged and fixed bugs across the entire full stack environment
- Migrated large legacy content sets from third-party providers to new databases
- Managed and deployed customer apps in multiple developer accounts

Project Xavier *(July 2016 - September 2016)*
- Integrated search functionality with filtering and autocomplete while adhering to MVC pattern
- Constructed access control lists and user moderation functions
- Architected schemas to persist data in NoSQL store

PERSONAL PROJECTS

Sean-Mooney.com
- Followed mobile-first design approach with Bootstrap grid system
- Constructed custom contact form with validation in PHP to send emails on submission
- Created media gallery and lightbox using CSS only to enlarge and navigate through images

EDUCATION

Independent Software's A100 Program
Software Developer, Summer 2016

Norwalk Community College
Associate of Computer Science, 2015
